2010	2,127,222
2011	2,440,060
2012	2,790,027
2013	2,619,444
2014	2,468,609

**Bibliographic Records at  
Evergreen Indiana Libraries over  
Time**

Beginning with clean-up efforts in late 2013, we are pleased to see a clear decrease in the number of bibliographic records in the system as it represents significant work on the part of our catalogers and support staff to reduce the number of duplicate records stored in the database.

We continue to maintain an outstandingly diverse collection, adding thousands of new and unique bib records each year, while making it easier for patrons and staff to locate and procure the desired materials.
